ALAB, 12 MARCH 2024

MESSAGE FROM THE

CHAIRPERSON

Angat Buhay started with a leap of faith. We dared to imagine a Philippines, where the burden of poverty is lifted from the shoulders of our fellow Filipinos, thus allowing them to dream.

It was a Herculean task, given the challenges of our time. But we persevered, harnessing the goodwill of the private sector. Since its inception in 2016, Angat Buhay has become the center of gravity for all efforts aligned with this collective mission. Through the years, our program has bridged communities in need with organizations and individuals who want to help. Together, we have found innovative ways to deliver services that were most responsive and sustainable. We empowered communities and sectors in embracing their role as partners in development.

Matayog ang ating mga mithiin, pero mulat rin tayo sa realidad na hindi lahat ng espasyo ay bukas para sa atin. Kaya sa bawat pintong nagsara, bumasag tayo ng mga bintana, hindi nagpapigil sa mga balakid—at siniguro na lagi't lagi tayong nasa tabi ng ating mga kapwa Pilipino, lalo na sa mga pinakamahihirap na sandali. We sought to fill in the gaps, find partners who were willing to collaborate, and thrive in all the spaces we were allowed in. Our work eventually inspired more and more Filipinos to join our call for effective, ethical, and empathic governance.

All of our efforts are aligned with our vision: A future where our programs are replicated across communities, ensuring long-term impact and improved outcomes. We are grateful to our growing community of partners and volunteer groups, who have shared this mission with us through the years. All of them have blessed our endeavors with their compassion and generosity.

There is truly nothing like the power of collaboration and the hope that it inspires.

We are proud of the work that we have done—but there is still so much ahead.

Sa sama-sama nating pagkilos, alam ko na lalo tayong lumalapit sa Pilipinas ng ating mga pangarap, kung saan maiaangat ang buhay ng lahat.

**ATTY. MARIA LEONOR
"LENI" GERONA ROBREDO**
Chairperson and President

MESSAGE FROM THE

EXECUTIVE DIRECTOR

As we reflect on the past year, Angat Buhay reaffirms our commitment to our core values: Creative & Effective Responsiveness, Collective Spirit of Community Towards Solidarity, and Accountability in the Service to the Nation. These principles guide our efforts and shape our impact as we work towards uplifting lives and building a stronger nation.

In a world that is constantly evolving, our ability to respond creatively and effectively is crucial. This year, we have developed innovative solutions to address pressing issues. Our adaptability ensures that we meet the unique needs of the communities we serve, providing timely and impactful interventions that foster lasting change.

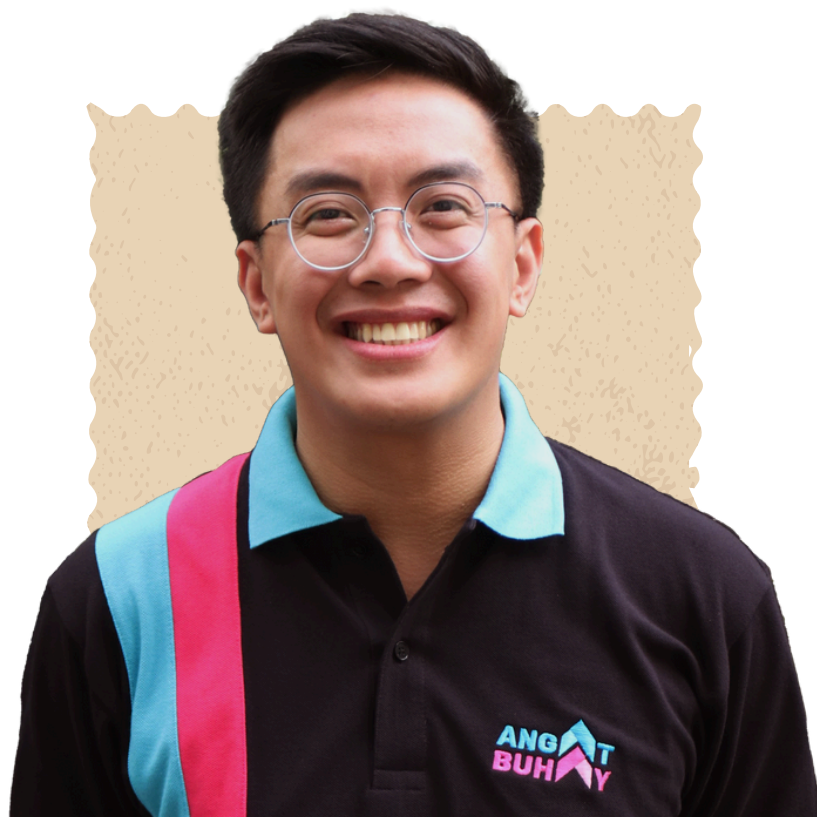

At the heart of Angat Buhay is our collective spirit of community. We believe in the power of solidarity and the strength that comes from working together. This year has seen an outpouring of support and collaboration from volunteers, partners, and community members, all united by a shared vision of progress. Together, we have transcended barriers and created a ripple effect of positive change across the nation.

Accountability is the cornerstone of our mission. We hold ourselves to the highest standards of transparency and integrity in all our endeavors. Our commitment to accountability builds trust with our stakeholders and amplifies the impact of our work, driving us to serve the nation with dedication and excellence.

As we move forward, Angat Buhay remains steadfast in our dedication to these core values. We are inspired by the progress we have made and motivated by the challenges that lie ahead. With creativity, community, and accountability as our guiding lights, we are confident in our collective ability to create a brighter, more equitable future for all.

Thank you for your continued support and partnership.
Patuloy tayong magbayanihan para sa ating mahal na bayan.

BRIGADA PAGBASA PARTNERS NETWORK LAUNCH,
JULY 2024

Public Education

From July 2023 to June 2024, Angat Pinas, Inc. (Angat Buhay) has been steadfastly committed to ensuring every Filipino student has access to quality education. Recognizing education as a fundamental right, we have focused on initiatives aimed at enhancing educational infrastructures such as classrooms and dormitories construction, and replicating our successful literacy program. With the support of our partners, we have provided critical resources to schools, particularly in underserved areas, creating sustainable models that can be replicated nationwide.

Bridging Literacy Gap through the

BAYAN KO TITSER KO (BKTK) PROGRAM

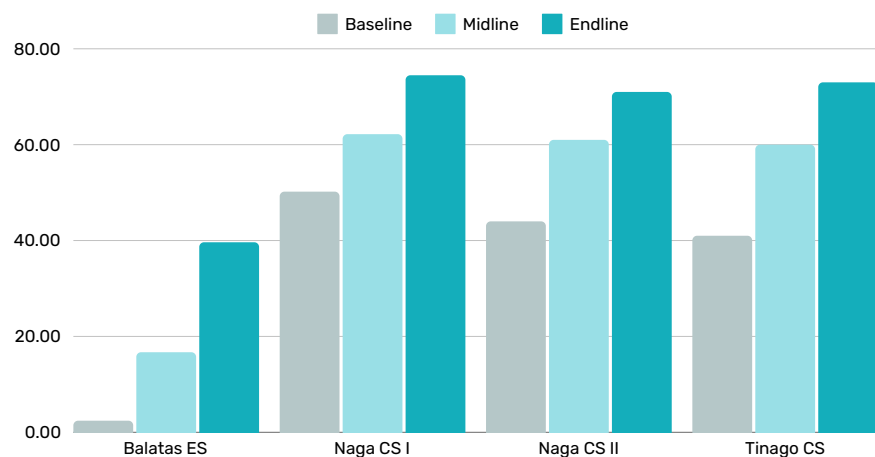

In response to the Philippines' low ranking in the 2022 Program for International Student Assessment (PISA), where the country placed 77th out of 81 nations, and considering that at least 90% of Filipino children aged 10 struggle to read or understand simple text, according to the World Bank's 2022 data on learning poverty, Angat Buhay and its partners have implemented the Bayan Ko Titser Ko (BKTK) program. What started as community learning hubs when Angat Buhay was still a government program in the Office of the Vice President has pivoted into a program focused on addressing literacy and nutrition disparities among Grade 1 non-readers. This strategic pivot was driven by the decline in volunteers after the pandemic. To ensure its sustainability and replicability, Angat Pinas, Inc. has partnered with local implementing organizations and higher educational institutions such as Ateneo de Naga University, Central Bicol State University of Agriculture, Universidad de Santa Isabel, University of Nueva Caceres, Naga College Foundation, Naga View Adventist College, STI College Naga, Bicol State College of Applied Sciences and Technology, Siena College of Taytay, and De La Salle Santiago Zobel. In partnership with the UP College of Education, partner higher educational institutions undergo training of trainers before implementing the BKTK in their respective communities.

The BKTK program integrates essential components to support educational advancement: The literacy program utilizes the Marungko Model, providing tailored reading modules to meet the specific needs of non-readers. Additionally, a six-month feeding program is implemented to enhance the nutritional status of participating students, promoting their overall health and readiness to learn. Moreover, recognizing the pivotal role of parents and guardians in a child's educational journey, BKTK includes support groups aimed at fostering parental involvement through values formation and skills development.

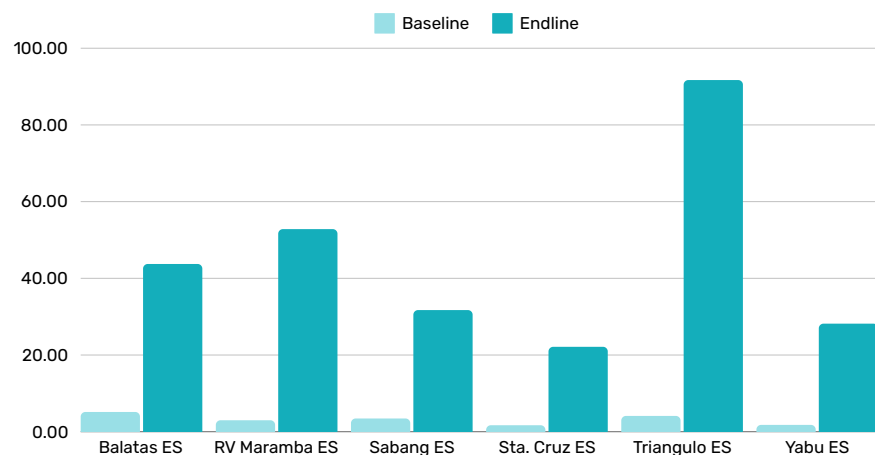

SY 2021-2022 Progress Result

Average Increase: 30.12

SY 2022-2023 Progress Result

Average Increase: 42.04

In July 2023, the organization celebrated the completion of the literacy component by 501 identified students across six public school sites in Naga City: Rosario V. Maramba Elementary School, Triangulo Elementary School, Sabang Elementary School, Balatas Elementary School, Yabu Elementary School, and Sta. Cruz Elementary School. Notably, Naga City reported a 42.04% increase in literacy rates based on the baseline to endline progress report conducted by the City School Division of Naga. These outcomes underscore the program's effectiveness in addressing literacy challenges and enhancing educational outcomes among young learners in underserved communities.

Expansion efforts have garnered commitments from additional areas across the Philippines, including Taytay, Rizal, Muntinlupa City, Pasig City, San Mateo, Rizal, Dagupan, Pangasinan, General Santos City, and Tobacco City, Albay,

All of our education efforts are aligned with our vision: a future where our education programs are replicated across communities, ensuring long-term impact and improved educational outcomes. It takes a village to raise a child, and even more partners to educate them. The key to growth and sustainability in our education programs is long-term institutional partnerships, guided by a robust and comprehensive monitoring framework that ensures holistic outcomes for Filipino students.

CLASSROOM CONSTRUCTION

In response to the critical shortage of classrooms impacting students across the Philippines, Angat Buhay, in partnership with AGAPP Foundation (Aklat, Gabay, Aruga tungo sa Pag-angat at Pag-asa), Western Guaranty Corporation, Ortol Family, and Jesus V. Del Rosario Foundation, Inc. has launched significant classroom construction initiatives to improve educational facilities and create better learning environments for Filipino students.

For this reporting period, the organization has completed classroom construction projects at the following schools:

📍 **Siba-o Elementary School** **Calabanga, Camarines Sur**

Four classrooms were built, accommodating 160 more students.

📍 **Maasin Central School** **Maasin, Iloilo**

Two classrooms were constructed, providing space for an additional 80 students.

📍 **Julian B. Meliton Elementary School** **and Mac Mariano Elementary School** **Naga City**

Each school received two classrooms, accommodating another 80 students per school.

📍 **Tuburan Elementary School,** **Cabunlawan Elementary School,** **and Mateo Elementary School** **Iloilo**

Each school received two classrooms, increasing capacity by 80 students per school.

📍 **Rosario V. Maramba Elementary** **School and Don Manuel I. Abella** **Central School** **Naga City**

Each school received two classrooms, providing space for another 80 students per school.

20
CLASSROOMS

creating space for

800
**ADDITIONAL
STUDENTS**

In total, the Angat Buhay has constructed 20 furnished classrooms with complete tables, chairs, and school supplies in different elementary schools in the provinces of Camarines Sur and Iloilo, creating space for 800 additional students across these schools. Each classroom represents more than just physical space; it signifies an opportunity for students to learn in a conducive environment essential for their growth and development.

Angat Buhay continues to address classroom shortages with ongoing construction projects at Makiri Elementary School in Isabela City, Basilan, Sabang Elementary School and Morada-Ramos Elementary School in Naga City, and Congressman Dinggoy Araneta Roxas Elementary School in Pontevedra, Capiz. Each project aims to add capacity for an additional 80 students, furthering the organization's commitment to enhancing educational opportunities nationwide.

Angat Buhay also adheres to a transparent process for educational infrastructure programs. The bidding process was launched to ensure that the contractor awarded the project proposes a cost-efficient yet high-quality infrastructure program.

The organization also takes pride in low-cost classroom projects. According to industry standards, constructing a classroom typically costs P2.5 million. However, an Angat Buhay building with two classrooms costs only P1,700,000, which is P850,000 per classroom.

These construction efforts play a crucial role in reducing educational disparities and ensuring that every Filipino child has access to a high-quality learning environment. By investing in educational infrastructure, the organization aims to empower students and communities, laying the foundation for a brighter future.

DORMITORY CONSTRUCTIONS

The Dormitory Constructions, led by Angat Buhay in collaboration with a diverse coalition of partners, remains dedicated to advancing the educational opportunities of students in Geographically Isolated and Disadvantaged Areas (GIDA). This initiative continues to focus on improving academic performance by addressing the significant challenges students face, such as long journeys to school through mountainous and river-crossed terrains.

Recent accomplishments include the completion and turnover of dormitories at Southern Luzon State University in Infanta, Quezon (25 beds, supported by the Rotary Club of Makati), Tulay na Lupa National High School (40 beds, supported by the LBC Hari ng Padala Foundation), Central Luzon State University in Calabanga, Camarines Sur (50 beds, turnover completed in November 2023), Palawan State University (20 beds, turnover completed in June 2024), Sorsogon State University (26 beds, turnover completed in June 2024).

Additionally, ongoing construction efforts are underway at the University of the Philippines - Cebu (16 beds) demonstrating continuous commitment to providing conducive learning environments for GIDA students. In total, the project has facilitated the construction of five dormitories with a combined capacity of 161 beds, significantly reducing barriers to educational access.

This remarkable progress is underscored by the collaborative efforts of partners including:

American Heritage Appliances
 Angat Buhay USA
 Atalier Almario
 Australian Embassy in the Philippines
 C.C. Buencamino Architect
 Camarines Sur National High School
 Cypress Bomacrete
 Gardens by Sanders, Inc.
 Graceline Product, Inc.
 Ikea
 Jaime V. Ongpin Foundation
 JCI Labo
 Landmark
 LBC Hari ng Padala Foundation
 Maria Cecilia "Ces" Tan
 Masflex Cookware
 Nippon Paint
 RAF International Forwarding Phils. Inc.
 Rye Rentoy Interior Design
 Sibol at Liwanag sa Buhay, Inc.
 Siklab Lingkod Bikol
 Tahiran Residence and Study Center
 University of the Philippines-Cebu
 Uratex Philippines
 Wilcon Depot

These partnerships have not only provided crucial financial support but also invaluable expertise, materials, and volunteer efforts, enabling significant strides in expanding educational access and improving outcomes for GIDA students.

Moreover, the impact of these efforts is highlighted by the rapid growth of dormitory construction facilitated by Angat Buhay as an NGO. Within just two years, Angat Buhay as an NGO has exceeded the number of dormitories built during its tenure as a government program under the Office of the Vice President, underscoring its enhanced capacity to foster positive educational outcomes in geographically isolated and disadvantaged areas and marginalized communities.

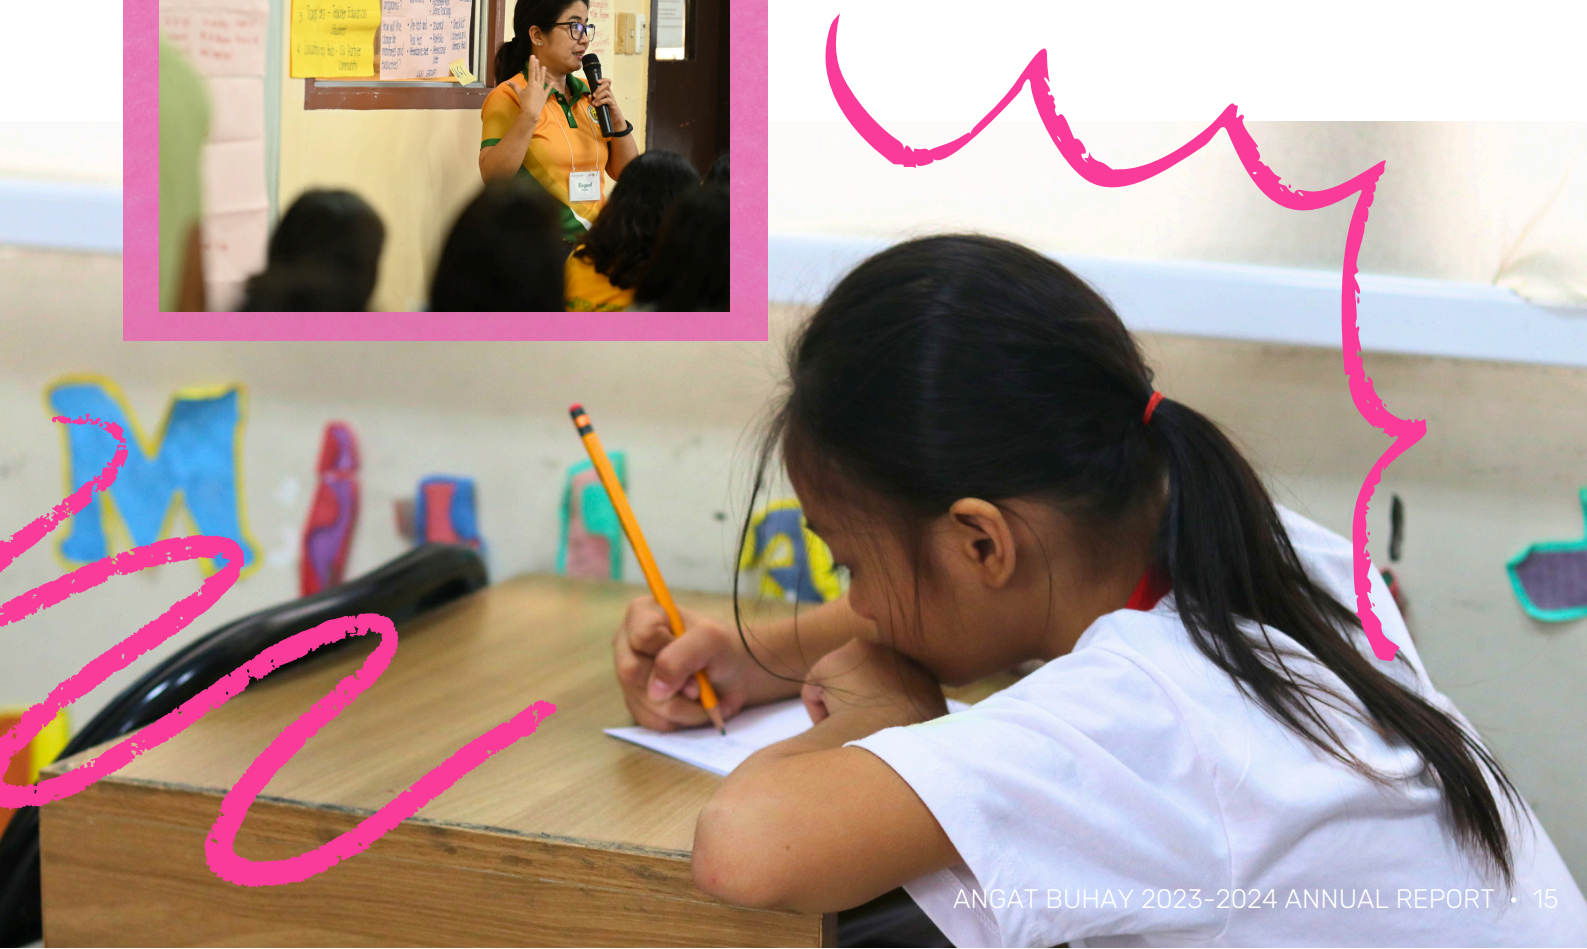

SELECTION AS ASEAN FOUNDATION'S PARTNER CSO

The eMpowering Youth Across ASEAN (EYAA) initiative engages talented youth aged 19 to 35 from the ten ASEAN Member States. The program focuses on developing and implementing community projects aimed at delivering sustainable social and economic impacts in selected community sites. Participants are grouped based on their interests in Arts and Culture, Community Building, Education, or Environment. They undergo regional orientation and capacity-building workshops covering project planning and impactful awareness campaigns. Following this, volunteers mobilize simultaneously in ten community areas across ASEAN and collaborate with local Civil Society Organizations (CSOs) to execute their projects over two weeks.

In its 4th year, Angat Buhay has been chosen as one of the Civil Society Organizations participating in the EYAA program, representing one of only two CSOs from the Philippines. Through its "Bayan Ko, Titiser Ko" Program, EYAA volunteers from all ten ASEAN countries will engage in Angat Buhay's literacy remediation initiative in the City of Naga. This program aligns closely with the United Nations Sustainable Development Goals, ASEAN Socio-Cultural Community Blueprints, and the ASEAN Work Plan on Youth, ensuring its activities contribute meaningfully to regional development strategies.

Since its inception, EYAA has empowered 175 ASEAN youth to lead impactful initiatives in Cambodia, Indonesia, Malaysia, and the Philippines. These initiatives span arts and culture, community building, education, and environmental conservation, directly benefiting over 38,000 community members. The program's success underscores its commitment to fostering sustainable development and youth leadership across the ASEAN region.

Angat Buhay's involvement in the EYAA program highlights its dedication to educational and community empowerment, leveraging partnerships and initiatives to create positive and lasting change within ASEAN communities

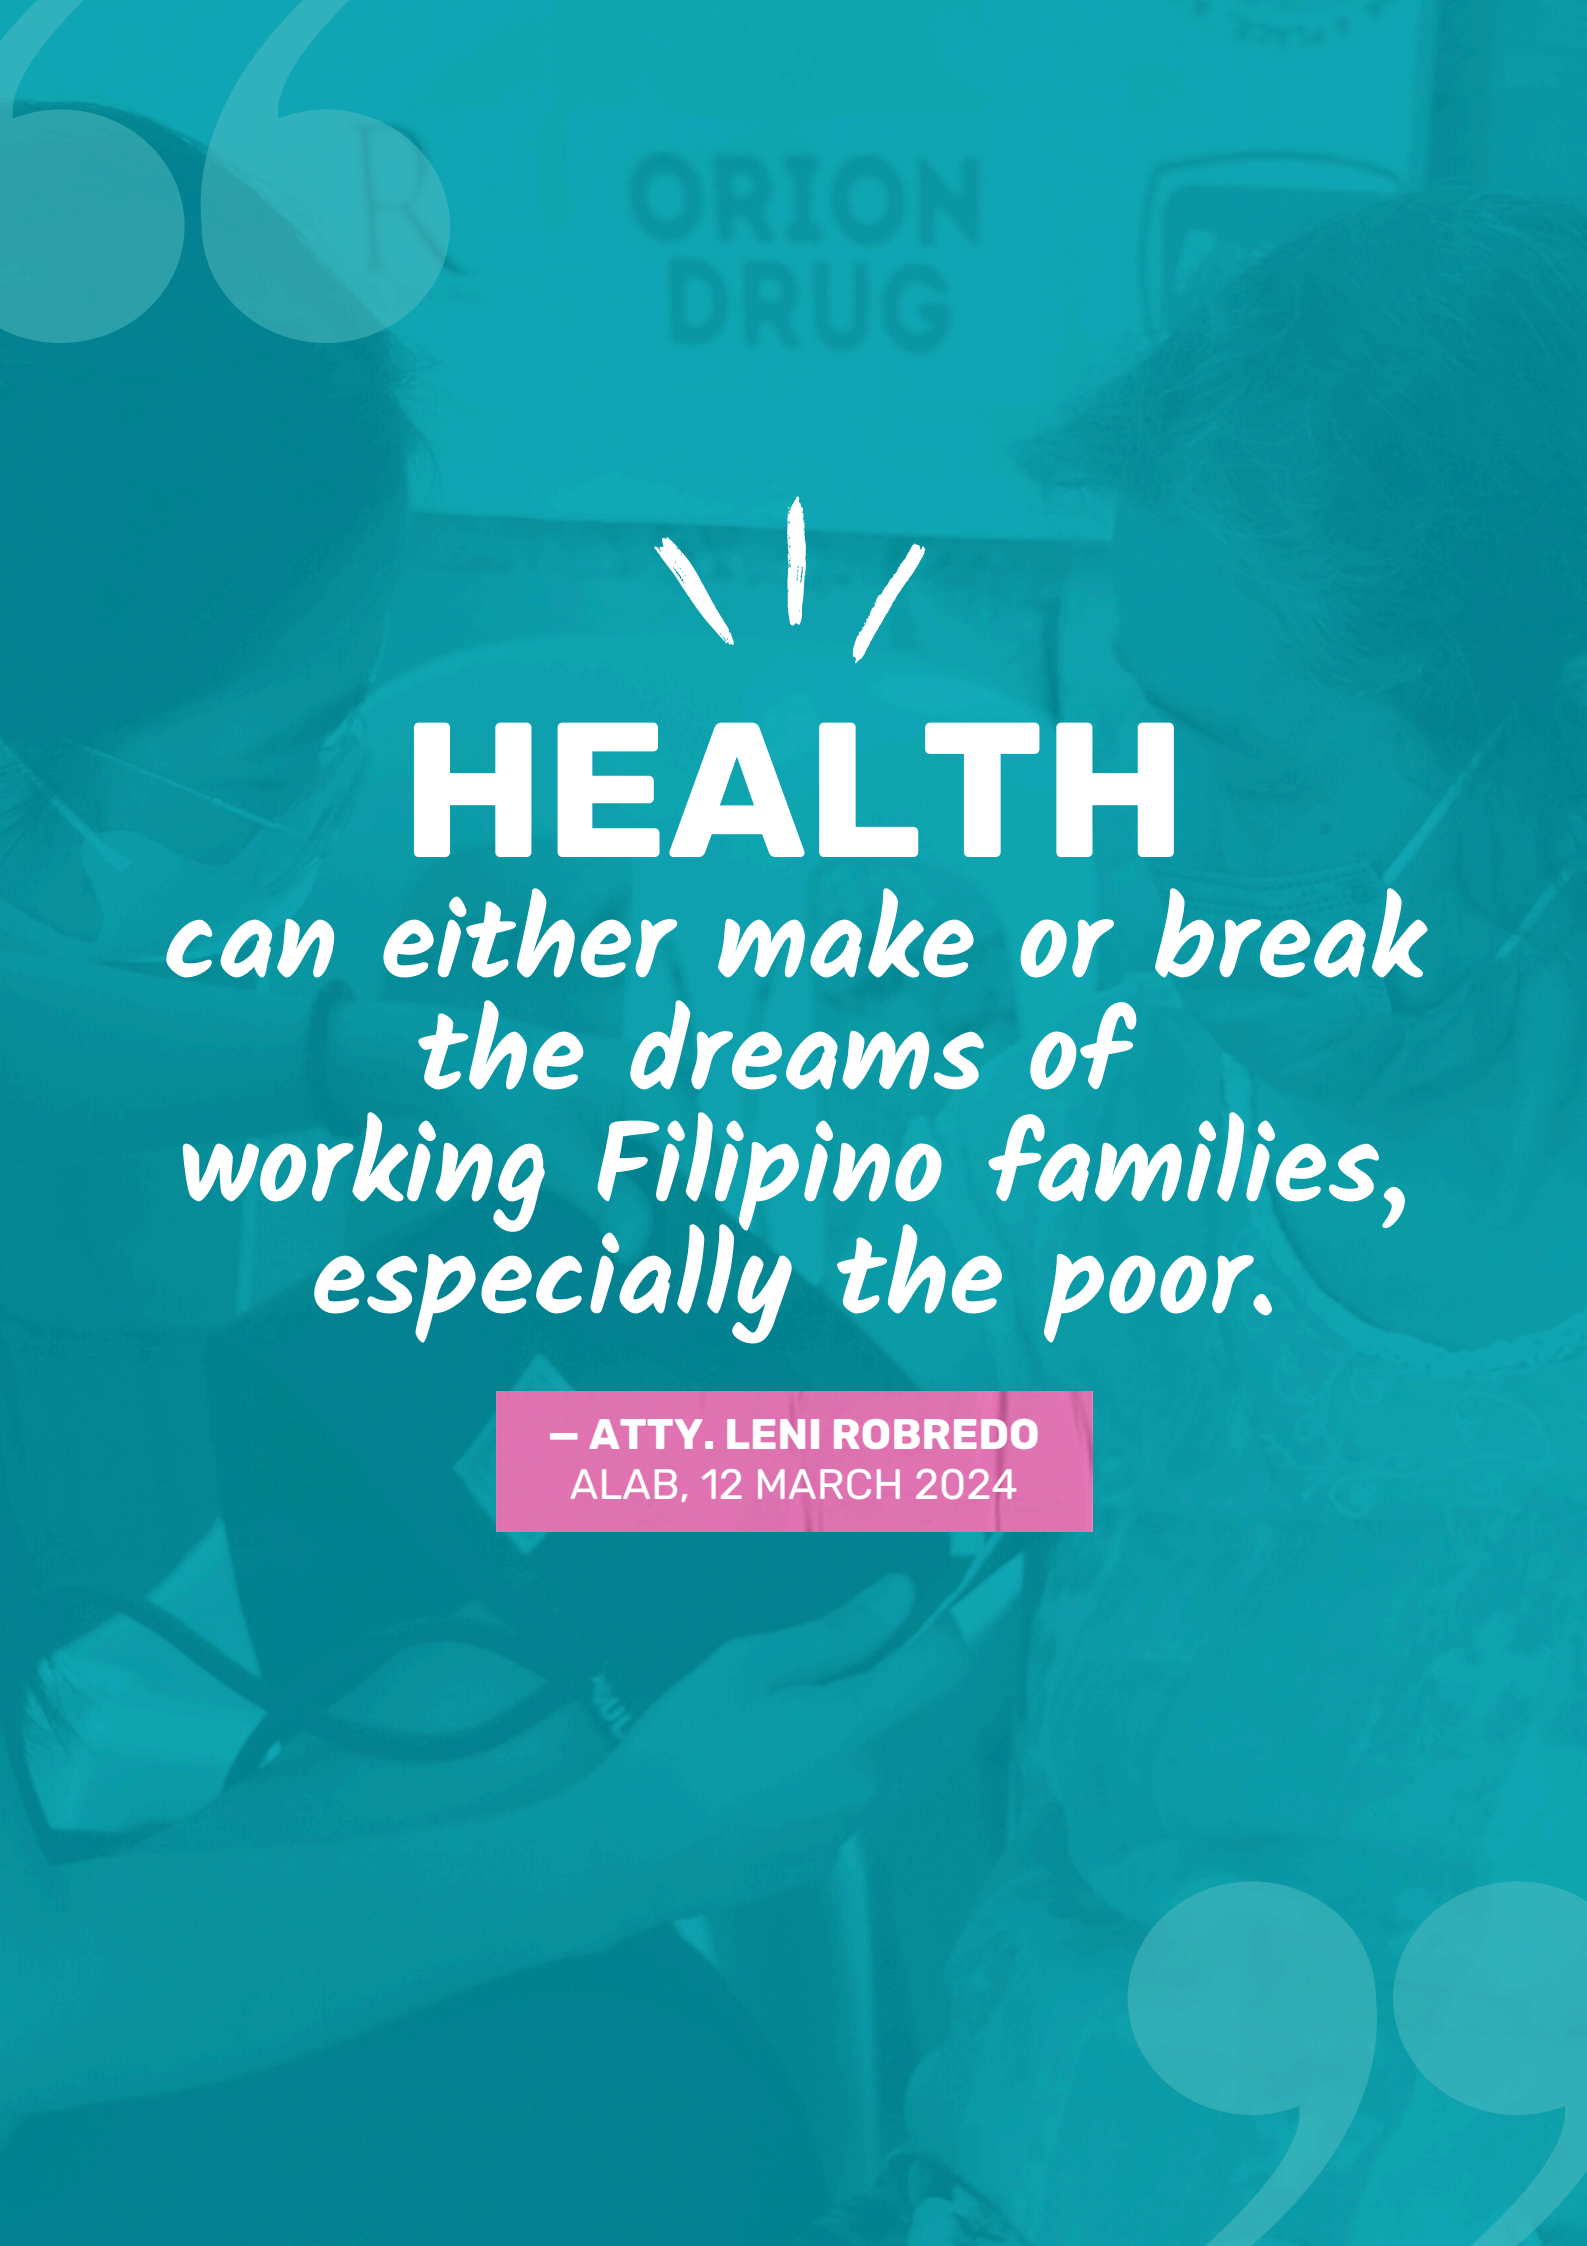

₱12,955,898.83

TO THE PUBLIC EDUCATION PILLAR

From July 2023 – June 2024, the Angat Pinas, Inc. (Angat Buhay) has allocated a total of Php12,955,898.83 funding to the Public Education Pillar. The support from our partners, which extended beyond financial contributions to include valuable in-kind donations such as expertise, volunteer time, and collaboration, has significantly empowered the organization's Foundation's education project sites. These contributions enabled the implementation of innovative strategies and the development of educational resources that fostered community engagement.

ALAB, 12 MARCH 2024

Public Health, Nutrition, and Food Security Pillar

From July 2023 to June 2024, Angat Pinas, Inc. (Angat Buhay) has steadfastly committed to improving nutrition and healthcare access for underserved communities. Recognizing the fundamental right to health and well-being, we have prioritized initiatives aimed at enhancing these critical areas. Comprehensive programs to combat malnutrition, particularly among children, have been successfully implemented throughout this period.

PATIENTS SERVED

BAYANIHAN E-KONSULTA

Bridging Healthcare Gaps with Telemedicine
and Mental Health Support

Through the Bayanihan E-Konsulta (BEK) platform, the Angat Buhay, supported by its team of medical and non-medical volunteers, continues to address the significant barriers to healthcare access faced by many communities. Limited availability of healthcare facilities, financial constraints, and geographical isolation often prevent individuals from receiving timely and adequate medical care.

To mitigate these challenges, BEK offers teleconsultations for general care, specialist care, mental health, and COVID-19, along with patient monitoring, provision of COVID care kits when necessary, and delivery of prescriptions and laboratory requests. The platform operates from Wednesday to Sunday, 8:00 AM to 3:00 PM, or until a daily cap of 150 patients is reached, whichever comes first. This service model ensures that even those in remote areas or with limited financial resources can access essential medical consultations without the need to travel.

Recognizing the critical need for mental health support, BEK has pivoted to place a greater focus on mental health services. In the Philippines, access to mental health interventions is severely limited due to a scarcity of mental health practitioners and resources. Many individuals, particularly in underserved communities, struggle to access the care they need to address mental health issues.

In response to these challenges, the Angat Buhay signed a Memorandum of Agreement (MOA) with Circle of Hope, a nonprofit organization dedicated to igniting genuine hope through compassion by providing services, education, and resources that foster wellbeing and resilience in underserved and underprivileged communities. Circle of Hope will provide mental health consultations to BEK patients, significantly enhancing the platform's capacity to offer mental health support.

In partnership with Henry Ford Health, we are also integrating the Zero Suicide framework, which is currently used in the United States, as part of our efforts to scale up our mental health services. As we make this shift, we hope to collaborate with more groups and volunteers—as we emphasize our collective responsibility to shed light on mental health, and to look after our brothers and sisters who struggle with it.

Since its launch on July 25, 2022, the BEK platform under the Universal Healthcare program, in partnership with Sollertia, Inc., has significantly expanded access to healthcare. As of June 30, 2024, Bayanihan E-Konsulta has served 9,028 patients, demonstrating its continued impact and reach.

The BEK platform owes its success to the commitment of a diverse volunteer base. It includes 1,407 non-medical volunteers, among whom 58 specialize in mental health support, alongside 285 medical practitioners. Additionally, 10 mental health professionals, including psychologists, counselors, and a psychiatrist, contribute their expertise. These volunteers play a crucial role in enabling the platform to cater effectively to a wide range of patient needs, ensuring the delivery of comprehensive and timely healthcare services. Their dedication underscores the platform's capacity to address both general healthcare and specialized mental health needs within the community.

BAYAN KO, TITSER KO (NUTRITION COMPONENT)

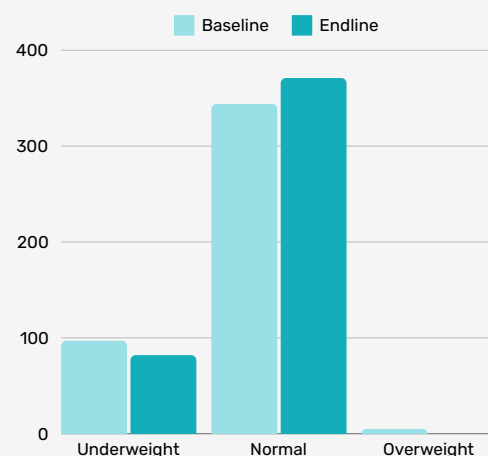

Transforming Child Nutrition and Combating Malnutrition and Stunting

Malnutrition is a critical issue in the Philippines, affecting a significant portion of the child population. Addressing this issue is vital for improving the overall well-being and future potential of the nation's children.

In partnership with JCI Senate Manilena, The "Bayan Ko, Titser Ko" (Nutrition Component) program in Naga City focuses on improving the nutritional status of children enrolled in six schools. The program aims to monitor and enhance the health of young students through regular assessments and targeted interventions. For the nutrition component, students receive one meal in school per day, five times a week, over a period of six months. This sustained nutritional support is designed to supplement their dietary needs and support healthy growth.

With 501 enrollees from these schools, the program undertook comprehensive assessments, recording the baseline and endline weight and height of the children. The data reviewed from these assessments showed a 15% decrease in the number of underweight children and a 5% increase in the number of children with normal nutritional status. By the end of the program, the percentage of children with normal nutritional status increased from 69% to 74% of the total participants.

These results indicate significant progress in reducing undernutrition among the children, with more participants achieving a normal nutritional status by the end of the program. The overall improvement underscores the program's positive impact on child health in Naga City, demonstrating potential for replication in different areas across the country.

THE ANGAT BUHAY FOOD SECURITY TRAINING FACILITY

Fostering Sustainable Food Security in Naga City

To improve the sustainability of our nutrition model, Angat Buhay marked a significant milestone on April 22, 2024, with the groundbreaking ceremony for the new Angat Buhay Food Security Training Facility in Brgy. Del Rosario, Naga City, in partnership with Rise Against Hunger Philippines and C.C. Buencamino. This facility underscores our commitment to growth and sustainability, featuring a new program design that integrates a food security component. As part of this initiative, parents of beneficiaries enrolled in the Bayan Ko, Titser Ko Program will receive training in community and home gardening. This training aims to empower them to continue practicing nutritious food habits beyond the initial 6-month intervention period of the Bayan Ko Titser Ko.

This new facility and program design represent our collective commitment to fostering sustainable nutrition practices and empowering communities. It embodies our vision of creating lasting impacts through nutrition, community engagement, and strategic partnerships.

MEDICAL MISSIONS

Bridging Healthcare Access Gap

Throughout the reporting period, the Angat Buhay partnered with various organizations to conduct several volunteer-led medical missions across different communities. In the City of Manila, in collaboration with the Manilenos Youth Initiative through their Angat Manilenos Health Program, we have successfully organized four medical missions, providing essential healthcare services to 813 patients. In Calamba, Laguna, our partnership with Calambayanihan Organizations facilitated a comprehensive medical and dental mission, benefiting 352 individuals. Similarly, in Antipolo, Rizal, our joint efforts with Koalisyon sa Pagpapaunlad ng Kababaihan sa Pamayanan and Manilenos Youth Initiative enabled us to serve 223 patients through a medical mission.

In San Mateo, Rizal, our partnerships with Angat San Mateo, Pascual Laboratories, and Reckitt resulted in a medical mission that catered to 41 patients, addressing urgent healthcare needs in the community. Additionally, in San Mateo, Rizal, we collaborated with Ang Bagong Liwanag Silangan and Rizal Medical Center for a bloodletting program, supporting 15 participants and contributing to local blood supply efforts. In Brgy Roxas, Quezon City, partnering with Pascual Laboratories and SK Brgy. Roxas, Quezon City, we distributed vitamins to 150 individuals, enhancing nutritional support within the community.

Overall, these initiatives collectively reached 1,594 patients, delivering crucial healthcare services and promoting health awareness. We remain dedicated to expanding our impact and continuing our partnerships to address healthcare needs in underserved areas effectively.

10,977

BENEFICIARIES

₱4,865,821.30

TO THE PUBLIC HEALTH PILLAR

During this reporting period, Angat Pinas, Inc. (Angat Buhay) has allocated a total of Php 4,865,821.30 funding to the Public Health pillar. This investment has greatly bolstered our capacity to deliver essential services and programs effectively. As a result, we have achieved substantial improvements in health and nutrition outcomes, benefiting 10,977 beneficiaries. The support from our partners extended beyond financial contributions to include invaluable in-kind donations such as expertise, volunteer time, and collaboration. This comprehensive support has greatly empowered Angat Buhay's public health, nutrition, and food security initiatives.

Climate Action and Sustainability

Our collective experiences with disasters underscore the need for support strategies that prioritize sustainability and create a deeper impact—extending beyond immediate relief efforts. Consequently, the organization reclassified its Disaster Relief and Rehabilitation Pillar into the Climate Action and Sustainability Pillar. This strategic shift allows us to broaden our services and catalyze action against climate change. By mobilizing volunteers, we aim to enhance community resilience and foster active participation in addressing the climate crisis. This reclassification reflects our commitment to long-term solutions and sustainable development in the face of growing environmental challenges.

ANGAT KALIKASAN: YOUNG LEADERS CONVERGENCE FOR ENVIRONMENTAL GOVERNANCE

In partnership with the Foundation for the Philippine Environment and Co-Presented by the Save Philippine Seas, YSEALI Amplify Metro Manila Hub, TAYO Awards Foundation, and Angat Cebu BPO, we launched the inaugural Angat Kalikasan: Young Leaders Convergence for Environmental Governance Fellowship. This pioneering initiative successfully trained 80 Sangguniang Kabataan members from 40 areas nationwide in policy advocacy, project management, development, and stakeholder engagement. Held over four days in Mactan Cebu, the fellows collaborated on finalizing policy proposals crucial to environmental governance, which will be supported by co-designed environmental projects implemented with partner civil society organizations. Thanks to our generous partners, 20 Sangguniang Kabataan Councils will receive seed grants to kickstart their environmental initiatives.

During the fellowship, participants engaged in immersive learning experiences, including visits to Olango Island, Cebu, where they gained firsthand insights into environmental challenges and explored the role of civil society organizations and participatory governance in addressing these issues. As a valuable output, Save Philippine Seas, our collaborating partner, co-developed an environmental governance handbook that compiles insights from speakers and inputs from the program. This handbook will be distributed free of charge to Sangguniang Kabataan Councils interested in launching environment-related programs and initiatives within their communities.

ANGAT KALIKASAN FELLOWS

1	Project AbacaBuhayin Project AbacaBuhayin aims to revive Lagonglong's abaca industry through environmental education, journalism training, and abaca weaving workshops, emphasizing the role of youth in driving climate action. Additionally, the project organizes events and collaborates with local businesses to promote sustainable practices, including beach cleanups and tree planting.	Sangguniang Kabataan of Barangay Poblacion	Lagonglong, Misamis Oriental
2	Plastic Free Malatipay Project Free Malatipay aims to reduce plastic usage by introducing alternative packaging materials for local produce purchases in Zamboanguita, promoting environmental conservation through informational campaigns and incentivizing sustainable practices such as reusable bags, ultimately minimizing plastic waste and carbon emissions while providing livelihood opportunities. Additionally, it seeks to improve waste segregation literacy among residents and foster collaboration with local NGOs and the government to monitor and implement sustainable initiatives.	Sangguniang Kabataan of Barangay Maluay	Zamboanguita, Negros Oriental
3	Project Aqua Verde Project Aqua Verde aims to improve the quality of life in Sitio Bagong Pook by installing a solar-powered water system, reducing reliance on non-renewable energy, and fostering environmental sustainability through community engagement and capacity-building sessions. Through educational sessions and stakeholder collaboration, the project aims to empower the community to manage and maintain the system for long-term sustainability, ensuring an environmentally resilient Barangay.	Sangguniang Kabataan ng Barangay Alcate	Victoria, Oriental Mindoro
4	Project LaHok! Project LaHok! aims to foster harmonious coexistence between communities and nature through sustainable management practices, particularly engaging the youth sector to understand their role in environmental conservation, thus revitalizing the ecological health of the Balo-i Agus river and enhancing ecosystem services vital for local livelihoods. By actively involving young fisherfolks in adopting sustainable practices and nurturing Environmental Defenders through skill-building and community-based activities, the project not only restores the river's vibrancy but also serves as a model for global conservation efforts, promoting a shared commitment to biodiversity preservation.	Sangguniang Kabataan of West Poblacion	Balo-i, Lanao del Norte
5	Project UCon (University Conservation Champions) Project Conservation Training and Biodiversity Camp project endeavors to educate college students with aspirations in conservation, concluding with a three-day biodiversity camp to deepen their appreciation of local ecosystems. Through proactive implementation of Communication, Education, and Public Awareness (CEPA) initiatives, the project seeks to empower 30 young conservationists to champion enhanced conservation efforts, prioritizing environmental preservation and fostering community engagement.	Sangguniang Kabataan of Barangay Calumpang	General Santos City
6	PROJECT IKAMP: Isang Kabataang Angat sa Makakalikasang Pagkilos PROJECT IKAMP: Isang Kabataang Angat sa Makakalikasang Pagkilos is a 3-day youth advocacy camp designed to instill a sense of environmental stewardship among student leaders in Barangay Commonwealth, Quezon City. Through interactive seminars, activities, and workshops, thirty participants will gain the knowledge and skills needed to spearhead environmental projects, raise awareness in their schools, and champion eco-friendly practices, with the overarching goal of establishing SK Commonwealth as the first green SK in the Philippines while promoting sustainability and ecological awareness.	Sangguniang Kabataan of Barangay Commonwealth	Quezon City, Metro Manila
7	Angat Bambuhay Angat Bambuhay is an environmental initiative focused on leveraging bamboo cultivation to rejuvenate a barangay's riverfront ecosystems. Through carefully planned steps, this program aims to ensure the successful establishment and sustainability of bamboo plantations while simultaneously fostering economic empowerment within the community.	Sangguniang Kabataan of South Poblacion	City of Naga, Cebu

ANGAT KALIKASAN FELLOWS

8	Negosyo is Weaving: Plastic Bottle Upcycling and Income Generating Project The "Negosyo is Weaving: Plastic Bottle Upcycling and Income Generating Project" is a collaborative effort between the Sangguniang Kabataan of Poblacion and Poblacion Women's Association, aiming to address plastic pollution and socio-economic instability by creatively upcycling plastic bottles into woven products, thus promoting environmental sustainability and economic empowerment within the community. The project entails collecting, cleaning, and sorting discarded plastic bottles, followed by training sessions to impart weaving skills to community members, with the support of government agencies, NGOs, and training centers, resulting in reduced plastic waste, improved livelihoods, and heightened environmental consciousness.	Sangguniang Kabataan of Poblacion	Dalaguete, Cebu
9	Project #Kasambuhan: Sustainable Agriculture and Livelihood Development in Barangay Fuente, Maluso, Basilan Project Kasambuhan in Barangay Fuente, Maluso, Basilan, aims to tackle poverty, hunger, and climate change threats through sustainable agriculture and livelihood development, emphasizing techniques that thrive in changing climates and promoting responsible consumption practices. By fostering community collaboration, implementing organic farming and water-saving methods, and conducting workshops on waste reduction, the project aims to improve food security, increase incomes, and empower resilience, ensuring a bountiful harvest while caring for the environment.	Sangguniang Kabataan of Barangay Fuente Maluso	Maluso, Basilan
10	Project Luntian Project Luntian tackles critical environmental issues like plastic pollution, deforestation, and climate change by fostering community stewardship of the environment through education, engagement, and actionable solutions. The initiative unfolds in three key components: Environmental Education Workshops to heighten awareness and promote sustainability, Community Engagement Activities for hands-on conservation efforts, and a Plastic Recycling Program to tackle waste. With a strategy that includes forming partnerships, volunteer mobilization, and phased activity rollouts, the project expects to cultivate environmental consciousness, sustainable living practices, reduced plastic waste and reforestation, and enhanced community resilience, steering communities towards a more sustainable and vibrant future.	Sangguniang Kabataan of Barangay Bual	Tulunan, Cotabato
11	Project Walang Plastikan "Project Walang Plastikan" targets the reduction of single-use plastics in Barangay Malandog by introducing a three-phase, income-generating approach that motivates residents economically while promoting sustainable alternatives to plastic waste. Phase 1, "Pagpaathag," focuses on raising awareness among sari-sari store owners and mothers through symposiums and house-to-house campaigns on waste management. Phase 2, "Pagtipon," involves collecting plastic waste in exchange for rice, with collected plastics sold to recycling businesses, streamlining the process without financial strain on the project's budget. Phase 3, "Pagbaylo," encourages sari-sari store owners to adopt a refilling method supported by an SK budget to phase out single-use plastics and facilitate the community's shift towards sustainable practices.	Sangguniang Kabataan of Barangay Malandog	Hamtic, Antique
12	River Renewal: Bokashi Balls for Cleaner Barangay Waters The "River Renewal: Bokashi Balls for Cleaner Barangay Waters" project tackles the issue of creek pollution within the barangay, focusing on its detrimental effects on local families, marine ecosystems, and livelihoods. Utilizing seminars and awareness campaigns, the initiative promotes using bokashi balls—organic spheres designed to break down waste and absorb toxins—to educate and engage the community in waterway restoration. Aimed at decreasing pollution levels and enhancing biodiversity, the project aspires to improve water safety and quality of life, championing sustainable practices for environmental stewardship.	Sangguniang Kabataan of Barangay Bantayan	Dumaguete City, Negros Oriental

ANGAT KALIKASAN FELLOWS

13	Padyak Para sa Pangarap: Project BiSKleta "Project BiSKleta" champions environmental sustainability by introducing bicycles as a green transport alternative for working students in our barangay in collaboration with local educational and religious institutions. This initiative seeks to ease access to education, promote physical health, and significantly reduce carbon emissions by decreasing reliance on motorized transportation. With the potential to enhance public health and foster a sustainable lifestyle, "Project BiSKleta" aspires to cultivate a more environmentally conscious community, driving towards reduced carbon footprints and a healthier planet.	Sangguniang Kabataan of Barangay Canumay East	Valenzuela City, Metro Manila
14	Katig-Bisig: Training of Trainers "Katig-Bisig: Training of Trainers" empowers Sangguniang Kabataan (SK) Committee Chairpersons on Environment in Camarines Norte, addressing critical environmental challenges through education, mentorship, and community action. This initiative aims to transform SK leaders into effective environmental advocates, fostering a sustainable and resilient culture across communities. By equipping these youth leaders with the skills and knowledge to lead ecological conservation efforts, Katig-Bisig envisions a future where proactive advocacy and tangible solutions drive positive environmental change.	Sangguniang Kabataan of Barangay IV	Daet, Camarines Norte
15	ART-Y (Abella Response Team - Youth) ART-Y (Abella Response Team - Youth) is a pioneering youth response team to elevate community disaster resilience, intertwining environmental sustainability with cutting-edge disaster risk management training. This transformative initiative, rooted in strategic partnerships, aims to set a new standard in community preparedness and youth empowerment against climate-related emergencies.	Sangguniang Kabataan of Barangay Abella	Naga City
16	Project #GenerationGI (Generation Green): Reclaiming Broken Places through Civic Ecology Project #GenerationGI focuses on empowering communities, especially those hit by crises, to participate in environmental stewardship through civic ecology. This initiative plans to elevate awareness, resilience, and community-led environmental restoration, utilizing people's connection to nature. Through workshops, training, and direct action like tree planting, the project aims to foster environmental consciousness and community capacity for stewardship and improve ecosystem health, ensuring long-term community resilience and sustainability.	Sangguniang Kabataan of Barangay 6 Poblacion	Cadiz City, Negros Occidental
17	Project Pag-ulikid: EarthCare Initiative Project Pag-ulikid: EarthCare Initiative, targeting Brgy. San Isidro, Sibunag, and Guimaras focus on environmental stewardship and sustainable community practices. It plans to establish greenhouses for tree and mangrove cultivation to combat global warming, prevent soil erosion, enhance water supply, and support local fisheries.	Sangguniang Kabataan of Barangay San Isidro	Sibunag, Guimaras
18	Eco-Thread: Weaving Sustainable Style Innovations "The Eco-Thread: Weaving Sustainable Style Innovations," is a collaborative initiative by the Sangguniang Kabataan of Barangay Bacayon and the Pink Movement Bacacay, targets youths aged 15-30 for a day-long workshop on sustainable fashion. Participants will learn about the impact of fast fashion and how to repurpose used garments into new items like tote bags and reworked tops, blending environmental care with skill development.	Sangguniang Kabataan of Barangay Bacayon	Bacacay, Albay
19	PEACycle Schools in Barangay Pamantingan advocate for Material Recovery Facilities (MRFs) on each campus to manage waste effectively, despite concerns that MRFs often serve as garbage storage. To counteract this and promote recycling, an event is planned where participants will create peace-themed artworks using recyclable materials, encouraging them to "turn trash into cash." This initiative aims to reduce waste accumulation in schools, showcasing participants' crafts and an exhibition of winning pieces at the event's culmination, highlighting the importance and potential of recycling efforts.	Sangguniang Kabataan of Barangay Pamantingan	Esperanza, Sultan Kudarat

ANGAT KALIKASAN FELLOWS

20	Solid Waste Management The proposed project focuses on enhancing waste management in a local community by introducing robust recycling and composting initiatives aimed at minimizing landfill waste, fostering environmental sustainability, and raising awareness of proper waste disposal practices. By conducting waste audits, providing recycling and compost bins to residents and businesses, hosting educational workshops, and collaborating with local companies for material repurposing, the project strives to halve landfill waste within a year. The expected outcome is a community more engaged in waste reduction, contributing to a cleaner, healthier environment.	Sangguniang Kabataan of Barangay Inamlan	Laoang, Northern Samar
21	Project LIKAS: Tungo sa San Isidro na Luntian at Masagana (Localized Integration of Key Advocacies for Sustainable Development) Project LIKAS empowers communities to tackle climate change through informed engagement. It unfolds in four strategic phases, including the establishment of Environment and Climate Justice Councils and educational SDG Roadshows. It integrates experiential learning with creative arts to spotlight sustainable development goals, culminating in immersive experiences at Masungi Georeserve with environmental advocates. This initiative fosters community-wide stewardship and climate justice, promoting sustainable and livable ecologies.	Sangguniang Kabataan of Barangay San Isidro	Taytay, Rizal
22	Project Dam: Developing a Greener Area for a Mindful Pantabangan The initiative at Pantabangan Lake is centered on environmental rejuvenation, emphasizing reforestation, the enhancement of aquatic life, and the promotion of responsible tourism. This involves planting additional trees around the lake and dam, introducing locally cultured fish hatchlings to boost the lake's ecosystem and local livelihoods, and installing signages to educate visitors on responsible tourism practices.	Sangguniang Kabataan of Barangay Poblacion East	Pantabangan, Nueva Ecija
23	River and Riparian Restoration Through Mangrove Oasis The "River and Riparian Restoration through Mangrove Oasis Project" focuses on revitalizing riverbanks by planting mangroves, which are known to improve water quality and increase habitat biodiversity significantly. By leveraging mangroves' natural erosion control and water filtration abilities, the project aims to enhance ecological health and stability across three phases: Planning and Preparatory, Implementation of planting, and Monitoring with Long-Term Maintenance. Expected outcomes include restored ecosystems, better water quality, and more robust habitat connectivity, showcasing the pivotal role of mangroves in environmental restoration.	Sangguniang Kabataan of Barangay Tambulild	Ormoc City, Leyte
24	Upland Rice Development Program in Claveria Masbate in partnership with Manapao Young Farmers Association The "Upland Rice Development Program in Claveria, Masbate," in partnership with the Manapao Young Farmers Association, focuses on enhancing the resilience and productivity of upland rice farmers through sustainable practices and seed management training. This initiative, aimed at achieving food security and supporting the upland rice supply chain, offers comprehensive training for farmers and local extension workers at Palayamanan sites, ensuring long-term agricultural success and environmental stewardship.	Sangguniang Kabataan of Municipality of Claveria	Claveria, Masbate
25	Project MAGSASAKabataan: Generating Organic Agriculture to Out-of-School Youth Individuals through Social and Behavior Change Communication (SBCC) Project MAGSASAKabataan aims to educate out-of-school youth on organic agriculture and environmental conservation through a month-long program combining lectures and practical immersion. Utilizing Social Behavioral Change Communication, it distributes materials and modules to foster an alternative, agriculture-focused educational campaign, highlighting the benefits of organic farming practices.	Sangguniang Kabataan of Barangay Panayakan	Tangalan, Aklan

ANGAT KALIKASAN FELLOWS

26	OneSeatiGenZ: Eco-Initiative Project "OneSeatiGenZ" unites community efforts towards sustainability, focusing on empowering Generation Z in coastal regions to tackle environmental challenges. The project seeks to instill effective waste management practices and reduce pollution through initiatives like leadership training, upcycling workshops, and campaigns against single-use plastics and polystyrene. It's a clarion call for collective action in making tangible environmental improvements.	Sangguniang Kabataan of Barangay Pantad	Dumalinao, Zamboanga del Sur
27	Istoryahan ang Kinaiyahan (ISK2SK) Environmental Capacity-Development Workshops for Sangguniang Kabataan Officials in the Province of Siquijor The "Istoryahan ang Kinaiyahan (ISK2SK)" initiative in Siquijor aims to empower SK officials to become environmental advocates, enhancing community life through green initiatives and sustainable practices. In collaboration with Zero Waste Youth - Siquijor and various partners, this youth-led endeavor will conduct capacity-development workshops for SK officials, fostering leadership in environmental projects and biodiversity stewardship.	Sangguniang Barangay of North Poblacion	Larena, Siquijor
28	EQUIP Forest Guards: "Empowerment and Quality of Life for Indigenous People" The project aims to protect the Philippine Eagle and its natural habitat by enlisting local communities in a Forest Guard Program, which trains indigenous people to monitor and safeguard against illegal activities. Fundraising strategies include engaging national government agencies, participating in environmental grants and competitions, seeking corporate sponsorships, partnering with conservation organizations, and applying for grants. These efforts will equip forest guards with essential gear and insurance, ensuring their safety and the project's sustainability beyond Davao City, to preserve biodiversity across the Philippines.	Sangguniang Kabataan of Barangay Poblacion	Compostela, Davao de Oro
29	HydroGreen: Cultivating Urban Gardens for Environmental Stewardship HydroGreen's urban gardening initiative leverages vertical hydroponic technology to foster sustainable living and boost local livelihoods, efficiently using solar energy and minimal space for maximum yield. By combining education with practical applications for urban agriculture, HydroGreen not only aims to produce fresh produce but also to enhance community empowerment, environmental awareness, and sustainability, all while promoting economic opportunities through urban gardening enterprises and reducing environmental impact.	Sangguniang Kabataan of Barangay San Mateo	Dasmariñas City, Cavite
30	C4W: Management and Segregation of Marine Debris for Economic Empowerment of Fishermen in Barotac Viejo During Closed Fishing Seasons The "C4W" project in Barotac Viejo transforms marine debris into a sustainable income for fishermen during closed seasons, addressing marine pollution and economic challenges. By training fishermen in waste management and creating recycling centers, this initiative promotes a circular economy, benefiting both the environment and the community's livelihood.	Sangguniang Kabataan of Barangay San Juan	Barotac Viejo, Iloilo
31	BAYanihan para sa Kalikasan: Kabataan at Mangingisda tungo sa Likas-Kayang Pag-Unlad The "BAYanihan para sa Kalikasan: Kabataan at Mangingisda tungo sa Likas-Kayang Pag-Unlad" project is a collaborative endeavor focused on environmental stewardship, engaging youth, fishermen, and locals around Laguna de Bay in conservation, management, and sustainable development while sustaining livelihoods. Situated in Bay, Laguna, the initiative aims to educate and empower the community to address key environmental issues, fostering a balance between ecological preservation and socio-economic well-being through targeted educational programs and collective action.	Sangguniang Kabataan of Barangay San Antonio	Bay, Laguna

ANGAT KALIKASAN FELLOWS

32	Linis Komunidad Project The Linis Komunidad Project is a dynamic, community-driven initiative targeting sustainable waste management to foster cleaner, healthier environments. It focuses on combating improper waste disposal and pollution through strategic waste segregation, recycling, and disposal practices.	Sangguniang Kabataan of Barangay Baital	Rajah Buayan, Maguindanao Del Sur
33	Project Tabang Project Tabang transforms waste into opportunity by launching a hydroponics program that repurposes discarded boxes and drums from the public market. This initiative reduces waste while promoting sustainable livelihoods through innovative agriculture. The project aims to decrease environmental impact and support community empowerment by converting waste into functional hydroponic systems, exemplifying a practical approach to sustainability and resilience.	Sangguniang Kabataan of San Francisco	Calabanga, Camarines Sur
34	Caminawit Youth Environment Council (CYEC): Empowering Youth for Sustainable Development The Caminawit Youth Environment Council (CYEC) aims to address environmental issues through community education and engagement, particularly targeting youth. Through seminars, workshops, and community programs, the council seeks to equip young people with skills for effective waste management and promote urban gardening to enhance food security and environmental protection.	Sangguniang Kabataan of Barangay Caminawit	San Jose, Occidental Mindoro
35	Dream-C Project: Developing Resources through Environmental Action for My Campidhan DREAM C, which stands for Developing Resources through Environmental Action for My Community (Campidhan), is a long-term project initiated by the Sangguniang Kabataan of Campidhan in 2024. It aims to develop, preserve, and safeguard the natural resources of the community, including the iconic Sleeping Lady Mountain and pristine gray-sand beach, through regular environmental actions such as coastal and community clean-ups, recycling initiatives, and beautification projects, fostering a sustainable and welcoming environment for both locals and visitors.	Sangguniang Kabataan of Barangay Campidhan	San Julian, Eastern Samar
36	Matatag na Kalikhasan: Mangrove Planting at Barangay Sabang, Morong, Bataan The Sangguniang Kabataan ng Barangay Sabang is hosting a Mangrove Planting event in an area prone to flooding, aiming to address climate change impacts and reduce flood risks. This initiative involves three main steps: Planting, Monitoring, and Maintenance, with the potential to restore mangrove ecosystems, promote sustainability, and improve the well-being of local communities.	Sangguniang Kabataan of Barangay Sabang	Morong, Bataan
37	Project Abay (Alalay sa mga Bantay sang Baybay) Project Abay, or "Alalay sa mga Bantay sang Baybay"(Support for the Guardians of the Coast), addresses challenges faced by the fishing community in Barangay Parara Norte, Tigbauan, heightened by climate change impacts. The project focuses on promoting compliance with fishing regulations, disseminating climate information, providing safety gear, and offering community-based disaster risk reduction and management (DRRM) training, aiming to ensure sustainable fishing practices and enhance community resilience.	Sangguniang Kabataan of Parara Norte	Tigbauan, Iloilo
38	Buwan ng Kalikasan: Pagpapalaganap ng Kaalaman, Kamalayan, at Kalutasan sa Inang Kalikasan sa Kabataang Balara Buwan ng Kalikasan: Pagpapalaganap ng kaalaman, kamalayan, at kalutasan sa inang kalikasan sa kabataang balara" features a series of activities, including seminars on environmental awareness and risk prevention, alongside a Short Campaign Film Making Contest, aiming to merge filmmaking with environmental advocacy to engage and enlighten youth and future generations. These initiatives seek to address environmental challenges in the barangay by involving and educating its youth, ultimately fostering a deeper connection to and understanding of environmental issues.	Sangguniang Kabataan of Barangay Matandang Balara	Quezon City, Metro Manila

39 Kuwentong Pag-asa ni Juan

Kuwentong Pag-asa ni Juan is an initiative aimed at raising awareness about climate change, its effects, and how children can contribute to addressing this pressing issue. The project seeks to serve as an educational platform for children, inspiring them to become catalysts for change. To implement this project, the organizers will visit every zone (purok) in the barangay, gathering children and commencing storytelling sessions with the aim of reaching as many children as possible. Additionally, in collaboration with the Youths for Responsive and Green Advocacies (YRAGA) Youth Organization, they aspire to publish a storybook containing educational content on climate change as well as inspirational stories of children who have participated in the Kuwentong Pag-asa ni Juan Program.

40 Green Tide: Turning the Tide on Coastal Waste in Pantalan Bago

Green Tide is a collaborative initiative designed to combat coastal and marine waste in Barangay Pantalan Bago. The project will implement a comprehensive waste management system, engage the community through educational campaigns, and establish sustainable practices for waste reduction. Activities include coastal clean-ups, installation of waste collection points, and workshops on waste segregation and recycling. Our goal is to significantly reduce marine waste, foster community involvement in environmental conservation, and lay the groundwork for sustainable coastal management. Anticipated outcomes include a cleaner coastline, increased community awareness and participation in environmental conservation, and a model for other coastal communities to follow.

RELIEF EFFORTS

The spirit of bayanihan was demonstrated as we assisted 1,832 families in Ilocos Norte, Ilocos Sur, Pangasinan, Abra, and Bataan affected by Super Typhoon Egay. Through our collaborative efforts with various organizations on the ground, we were able to swiftly deliver much-needed relief, showcasing the true power of community and solidarity. Together, we turned challenges into opportunities for support and renewal, reinforcing our commitment to stand with every Filipino in times of crisis.

HOUSING EFFORTS

The organization is proud to highlight the successful completion of the Angat Buhay Village in Calabanga, Camarines Sur, providing homes for 35 deserving families. This program was made possible through a collaborative effort with esteemed partners: Tanging Yaman Foundation, Inc., University of Nueva Caceres, United Architects of the Philippines, LGU Sabang in Calabanga, Camarines Sur, Pilipinas Shell Foundation, Office of Representative Gabriel Bordado, and Assisi Development Foundation, Inc. Together, we have not only built houses but also nurtured a community, offering sustainable solutions and empowering families with a safe and dignified place to call home.

RECOVERY EFFORTS

In September 2022, Drag Race Philippines Season 1 Grand Winner Precious Paula Nicole, alongside Drag Superstars Eva Le Queen and Marina Summers, led a heartfelt fundraising initiative to aid families affected by STY Karding in Burdeos, Quezon. Together with generous contributions from Angat Bayanihan-Kingdom of Saudi Arabia and the Tanging Yaman Foundation, they successfully raised PHP 300,000.00. This fund was allocated to produce 20 fiberglass fishing boats (at PHP 15,000.00 each) for the affected communities.

Angat Buhay, in collaboration with local partner organization Angat Bayanihan-Polillo Group of Islands, identified two communities in Burdeos as recipients of the fishing boats—specifically the island barangays of Carlagan and Calutcot.

In March 2023, the first batch of 10 fiberglass fishing boats was ceremoniously handed over to the island community in Barangay Calutcot, Burdeos, Quezon Province. This area, severely impacted by STY Karding in 2022, is located a three-hour boat ride from the main port of Burdeos, facing the Pacific Ocean.

This March 2024, another island community, Barangay Carlagan, Burdeos, Quezon Province, received the second batch of 10 fiberglass fishing boats. This initiative not only provides vital resources but also signifies ongoing support and solidarity with communities striving to rebuild their livelihoods post-disaster.

Community Engagement and Empowerment

Angat Buhay has achieved remarkable progress this year through its Community Engagement and Empowerment (CEE) Pillar. By enhancing sector-based programs, broadening volunteer opportunities, and cultivating meaningful partnerships, Angat Buhay remains dedicated to empowering communities and cultivating a network of committed citizens driving forward progressive change. At Angat Buhay, we firmly believe in the transformative power of community. Collaborating closely with individuals, we strive to foster resilient communities and collectively combat poverty. Our initiatives inspire volunteerism and embody the spirit of bayanihan, fostering tangible and positive transformations.

ANGAT BAYANIHAN VOLUNTEER NETWORK (ABVN)

204
VOLUNTEER
ORGANIZATIONS

and

16,719
INDIVIDUAL
VOLUNTEERS

in

48
PROVINCES

The Angat Bayanihan Volunteer Network, launched last year, has empowered volunteer groups to take an active role in community development and local governance. With 204 volunteer organizations and 16,719 individual volunteers spanning 48 provinces across the country, the network has become a cornerstone of Angat Buhay's outreach. Additionally, the spirit of bayanihan extends beyond borders, with volunteer groups in Australia, Bahrain, Qatar, Hong Kong, the United Kingdom, U.S.A, Taiwan, Italy, New Zealand, Japan, and Saudi Arabia.

MAGING ISANG DAAN

Under the ABVN, many volunteer groups are now actively collaborating with institutional partners after the successful launch of the Maging Isang Daan development matching program co-implemented by the Friedrich Naumann Foundation Philippines. This program, highlighted by a “speed dating” launched during Angat Buhay’s anniversary last year, matched volunteer organizations with potential partners, resulting in pledges reaching P25 million within just one hour. These pledges are now being brought to life through various collaborative projects, showcasing the power of partnership in driving community development.

SECTOR-BASED PROGRAMS: YOUTH AND GOOD GOVERNANCE

This year, Angat Buhay made significant progress in enhancing sector-based programs to foster community engagement and empowerment with highlight on "Matino at Mahusay Information Sessions and Youth Summit," a pioneering initiative designed to engage and inspire youth through educational sessions and a summit emphasizing integrity, excellence, and effective leadership. This program successfully engaged 388 young leaders and Sangguniang Kabataan members in Naga City in partnership with Universidad de Sta. Isabel, Ateneo de Naga University, Jesse M. Robredo Foundation, Young People's Council, Galing Pook, and Haraya Coaching.

Aimed at young leaders and aspiring changemakers, the "Matino at Mahusay" initiative provided valuable insights into ethical governance, innovative problem-solving, and community development. Participants had the opportunity to learn from seasoned experts, engage in meaningful dialogue, and collaborate on projects addressing pressing societal challenges. This platform not only aimed to equip the youth with the skills and knowledge necessary for leadership but also fostered a sense of responsibility and a drive to contribute positively to their respective communities.

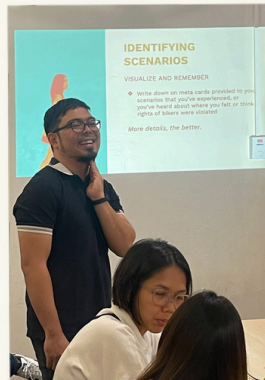

SECTOR-BASED PROGRAMS

On May 24, 2024, AltMobility PH, in collaboration with Angat Buhay, hosted the "Batas Bisikleta Feedbacking Event" to educate cyclists about the Batas Bisikleta campaign and seek insights on the program's design. This campaign aims to inform the Philippine cycling community of their rights and connect them with legal aid when necessary. The event was attended by Bikers for Good Governance and various cyclists, all committed to improving road safety and accessibility.

AltMobility PH, a group of policy advocates for sustainable and inclusive transport, highlighted the importance of sensible and humane policies. The Batas Bisikleta campaign focuses on ensuring that cyclists understand their legal rights and have the support they need. The event included a comprehensive overview of the campaign and a feedback session where participants could share their insights to enhance the Batas Bisikleta tool.

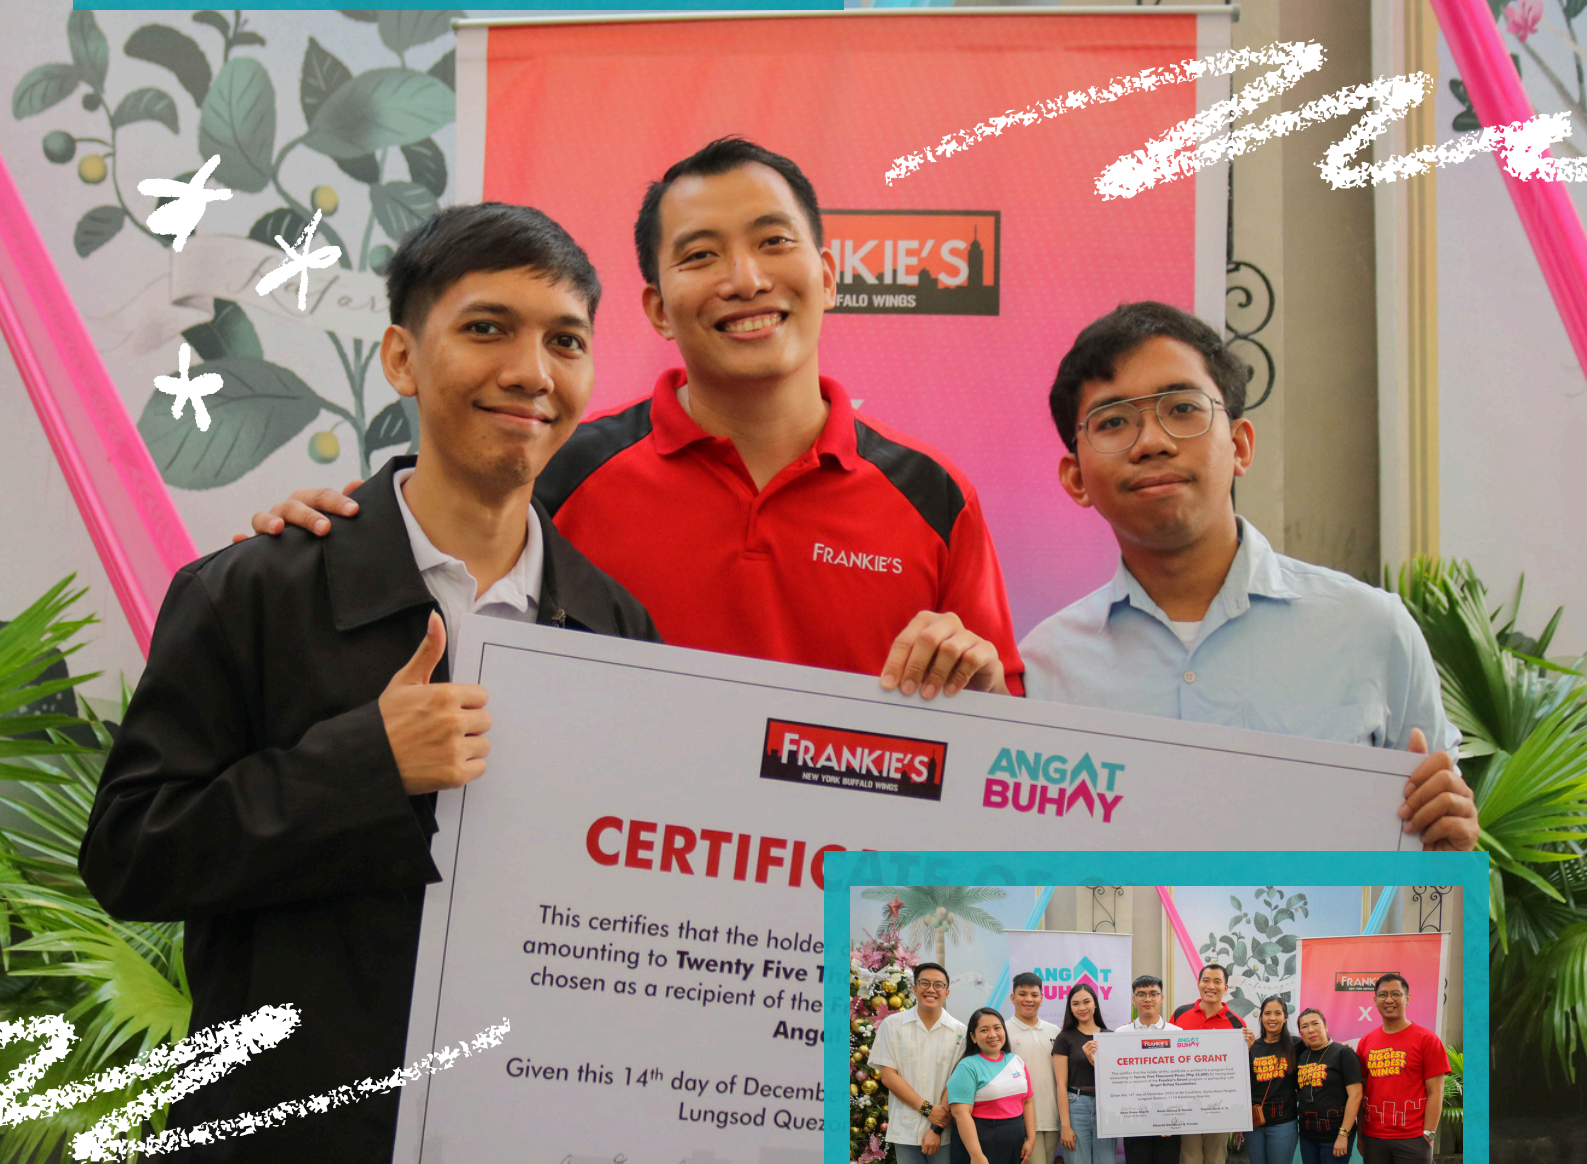

The discussions underscored the need for safer roads and better mobility options for cyclists. The feedback will help refine the tool to better advocate for cyclists' rights and safety. The event marked a significant step toward creating a safer, more inclusive transport system in the Philippines, demonstrating AltMobility PH and Angat Buhay's commitment to advancing sustainable mobility.

VOLUNTEER ENGAGEMENT

Angat Buhay is committed to broadening the scope for volunteering through Volunteer Day events and corporate volunteer engagements. Partner organizations like Philippine Society for Talent Development, GCash, Amazon Philippines, Pride PH, LoveYourself PH, and the band Coldplay through Global Citizen have generously shared their platforms to amplify Angat Buhay's impact.

COMMUNITY ENGAGEMENT AND EMPOWERMENT FUND

To support capacity-building efforts and shared advocacies, Angat Buhay has collaborated with institutional partners to facilitate grants for Angat Bayanihan Volunteer Network (ABVN) organizations. The Community Engagement and Empowerment Fund, in partnership with the Embassy of the Kingdom of the Netherlands in the Philippines and Frankie's New York Buffalo Wings, exemplifies this effort.

WOMEN CHAMPIONS IN THE WATER SECTOR FELLOWSHIP PROGRAM

The Women Champions in the Water Sector Fellowship Program, organized in partnership with the Embassy of the Kingdom of the Netherlands in the Philippines and in collaboration with the Manila Water Foundation and the Water Alliance, aims to empower women professionals in the water sector by providing essential resources, networks, and opportunities for professional growth.

The program sought to foster collaboration, innovation, and influence to promote gender equity in the water sector. By equipping fellows with the skills and knowledge needed to lead and innovate solutions to critical water challenges, the fellowship aimed to create a more equitable, sustainable, and resilient water sector. The cohort included 20 fellows from NGOs, CSOs, private organizations, government agencies, and various water districts. Each fellow developed a transformative change project related to water, gender, women, and leadership to be implemented in their respective organizations or communities. Through these efforts, Angat Buhay and its partners worked to ensure that women played a pivotal role in shaping the future of water management and sustainability. This program was designed to empower the next generation of women leaders by developing innovative solutions and sustainable management practices in response to global water challenges.

TINGRAW: MALIWANAG, MAKUSOG, MAUGMANG NAGA

Angat Buhay facilitated programs highlighting its key advocacies in the City of Naga. These convergence programs, developed in partnership with key stakeholders, capacitated young leaders with skills in good governance and ethical leadership, celebrated the pivotal role of women in community building, tackled the pressing issues of food insecurity and nutrition, and bridged gaps in literacy and infrastructure to enhance educational outcomes.

Building upon these efforts, the Foundation introduced Collective Action Week, an initiative designed to promote further Angat Buhay's core values that encouraged Bayanihan, the spirit of communal unity and cooperation, through a series of targeted activities and collaborative efforts aimed at addressing community needs and fostering a sense of solidarity among participants.

Among the series of activities was the "Lakas ng Kababaihan Day", a special event dedicated to celebrating women's critical role in fostering community cohesion and development. This day was designed to honor their contributions by offering a much-deserved moment of self-care in collaboration with local partners and service providers.

ALAB, 12 MARCH 2024

Arts and Culture Pillar

Angat Pinas, Inc. (Angat Buhay) has steadfastly supported young Filipino artists, particularly those from underserved communities. Recognizing the importance of arts and culture in community development, we have prioritized initiatives aimed at providing learning opportunities and platforms for talented youth to showcase their creativity. Our comprehensive programs foster a love for the arts, equipping emerging artists with the skills and resources they need to thrive. With the invaluable support of our partners, we ensure that these initiatives reach communities with limited access to arts and cultural resources, promoting inclusivity and empowerment through artistic expression.

ANGAT SINING FELLOWSHIP FOR YOUNG VISUAL ARTISTS

To bridge the gap in access to arts education and opportunities, Angat Buhay launched the Angat Sining Fellowship for Young Filipino Artists. This visionary program is dedicated to fostering an inclusive space for mutual learning, dialogue, and networking between emerging young talents and established artists in the Philippines. The Fellowship embraces diverse artistic genres and extends its reach to young artists from marginalized communities, offering them the chance to be mentored by esteemed visual artists across various disciplines. This unique exposure strengthens their expertise and broadens their understanding of their craft by introducing them to different institutional spaces.

This initiative aims to harness the power of art as a tool for social change, building bridges between different segments of society and championing the cause of cultural democratization. It stands as a testament to our belief that art should not be a privilege of a few but the heritage of all.

From October 2023 – April 2024, the fellowship trained 12 high school students across the Philippines. These students received mentorship from esteemed artists such as Mark Justiniani, who guided them in art critiquing, and AG Saño, who taught mural art. The program also included a mosaic art workshop at Ili-Likha Artists Watering Hole with Kidlat Tahimik, Kabunyan de Guia, and The Mighty Bhutens, providing hands-on experience in this intricate art form. Experiential learning visits to Museo Kordilyera and BenCab Museum offered them a deeper understanding of cultural contexts, with BenCab being a National Artist for Visual Arts in the Philippines. Additionally, Toym Imao shared valuable insights on public art and sculpture, while Foto Baryo provided photography training, and Ang Ilustrador ng Kabataan (Ang INK) offered instruction in illustration and children's book creation. These diverse learning experiences equipped the young artists with practical skills and enriched their artistic perspectives, empowering them to contribute meaningfully to their communities through art.

In partnership with Ateneo Fine Arts and the Metrobank Foundation, the program culminates in the fellows conducting an art exhibit, funded by a seed grant awarded by Angat Buhay. This final project not only showcases their development but also serves as a platform for these emerging artists to engage with the broader community, furthering our mission to democratize access to the arts.

MUSEO NG PAG-ASA

Angat Buhay seeks to continuously nurture the bayanihan spirit and provide it with a home. Museo ng Pag-asa was established as a monument to our people's bayanihan spirit and as a repository for all the works inspired by the People's Campaign. From June 2023 to July 2024, Museo ng Pag-asa has welcomed 9,388 visitors. During the same period, we have supported 30 local entrepreneurs by providing them with space to sell their crafts.

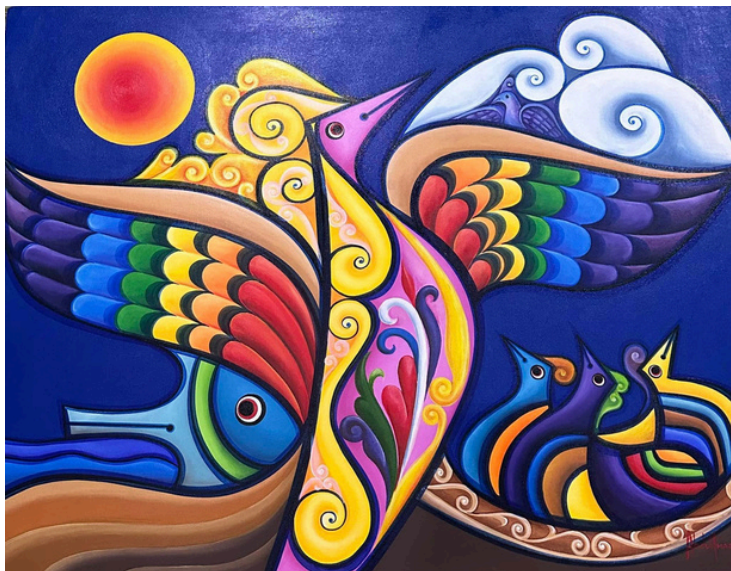

We have also opened Museo ng Pag-asa to partner CSOs, serving as a venue for their advocacy activities. These partners include the Young Southeast Asian Leaders Initiative (YSEALI), AltMobility, Pride PH, Pinas Safe Space, and GoodGov PH, who are spearheading programs on diversity, equity, and inclusion, gender, good governance, mobility, and civic engagement, among many others.

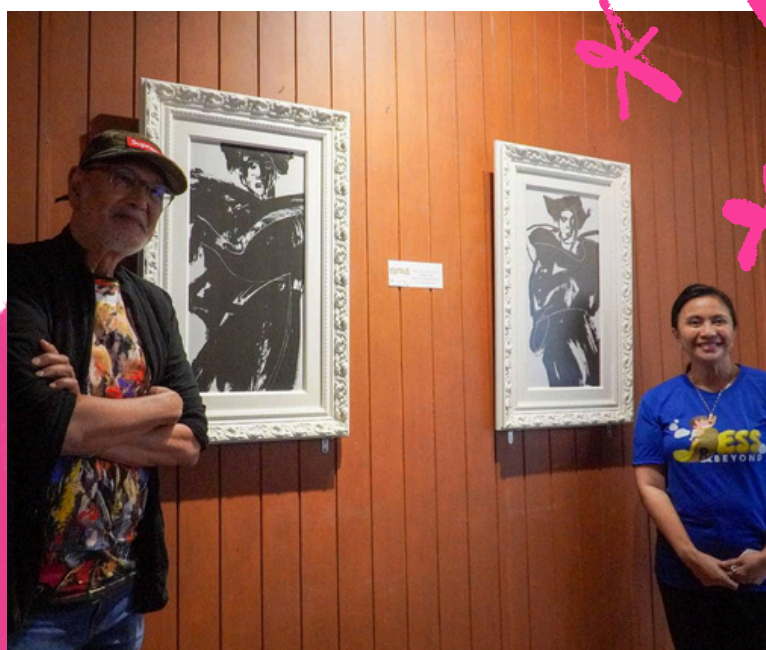

FUNDACION SANSO TOYM IMAO FUND/DONATION

The Sarimanok Toym Imao, in collaboration with Fundacion Sanso, has successfully raised 3.7 million pesos through Sarimanok prints as of today. The Sarimanok print was also featured at Galerie Francesca Emporium in partnership with the estates of National Artists Fernando Amorsolo, Abdulmari Imao, and Juvenal Sansó. Together, they launched 'Masterstroke,' a limited-release collection of three Giclee Fine Art Prints. Curated by Ricky Francisco, director of Fundacion Sansó, this exclusive collection showcases the distinct art styles of each master artist, highlighting the rich diversity of Filipino art. The funds raised will be used to support future Arts and Culture Programs and Initiatives.

SUPPORT TO RIGMAT ARTISTS IN NAGA CITY

Angat Buhay places a strong emphasis on collaborating with local arts institutions, as highlighted by its partnership with Rigmat, an arts and culture coalition in Naga City. In August 2023, the Rigmat Arts and Culture Festival was launched in Naga City, led by the Naga City Arts and Culture Coalition in collaboration with Angat Buhay. During the weeklong event, Angat Buhay actively engaged by providing artists who served as speakers and mentors in various parallel events. We remain committed to enhancing access and creating opportunities for local artists, as evidenced by their participation in the recent Modern and Contemporary Arts Festival.

₱7,522,022.97

TO THE ARTS AND CULTURE PILLAR

From July 2023 to June 2024, Angat Pinas, Inc. (Angat Buhay) allocated a total of Php7,522,022.97 to the Arts and Culture Pillar. This support extended beyond financial contributions from our partners to include invaluable in-kind donations such as expertise, skills, and other resources, significantly empowering the organization to enhance access to arts education for emerging artists from marginalized communities.

Through these combined efforts, we implemented innovative programs that fostered artistic growth. These initiatives included workshops, mentorship programs, and collaborative projects that provided hands-on experience and professional development opportunities for aspiring artists.

By leveraging the expertise and skills contributed by our partners, we have not only enhanced the quality of arts education but also created a more inclusive environment where talent from all backgrounds can thrive. This holistic approach has enabled us to nurture the creative potential of young artists, particularly high school students, equipping them with the tools and confidence needed to succeed in the arts.

*I understand that
bearing hope for others
can feel like a heavy burden,
especially in moments
bereft of light and certainty.*

This is why
we draw strength
from your
friendship
and
support.

Partnership, Communications, and Monitoring, Evaluation, Learning, and Impact

From July 2023–June 2024, Angat Pinas, Inc. (Angat Buhay) achieved a cumulative reach of 24,359,804.29 across its social media platforms, underscoring the organization's effective use of digital communication strategies to disseminate information, engage with stakeholders, and attract volunteers to support our cause. These efforts have not only amplified our message of Bayanihan but have also shared inspiring stories of hope and change on the ground, showcasing the tangible impact of our initiatives in transforming lives and fostering sustainable development.

Angat Pinas, Inc. (Angat Buhay) is also a proud member of the Association of Foundations (AF), a network of non-government organizations committed to developing sustainable programs that benefit their communities. By joining AF, Angat Pinas enhances its reputation and gains support in improving its governance and program effectiveness. This membership also allows Angat Pinas to collaborate with other foundations and actively participate in shaping the development agenda of the Philippines, working towards a progressive and inclusive nation.

To date, Angat Buhay has established partnerships with 317 organizations and entities, both nationally and internationally. These collaborations are integral to advancing our comprehensive programs across pillars such as Public Education, Public Health, Climate Action & Sustainability, Community Engagement and Empowerment, and Arts and Culture. Together with our partners, we aim to enhance educational access and outcomes, promote public health initiatives, advocate for climate resilience, empower communities through inclusive development, and enrich cultural heritage. Embracing the Collective Impact framework, these efforts leverage shared goals, mutual accountability, and continuous communication to amplify our impact, ensuring that our initiatives are not only effective but also sustainable, fostering positive change and improving the well-being of the communities we serve.

with organizations and entities

GOMBURZA

On December 30, friends of Angat Buhay organized a movie screening event to support AB's programs. The evening featured a screening of "Gomburza," one of the entries for the 2023 Metro Manila Film Festival. The event also fostered community engagement, as viewers not only bought their own tickets but also had the opportunity to purchase tickets for students from our community partners who otherwise would not have been able to watch the film.

"Gomburza" emphasizes the values of courage, integrity, and patriotism, inspiring viewers to reflect on the significance of fighting for freedom and human rights. Angat Buhay extends its heartfelt thanks to Direk Pepe Diokno, Paul Cedrick Juan, Enchong Dee, Dante Rivero, Elijah Canlas, and everyone involved in the making of "Gomburza."

As part of a cherished Filipino Christmas tradition, Friends of Angat Buhay have once again come together to celebrate Simbang Gabi. This year marks the second edition of this heartwarming initiative, designed to foster collaboration among our supporters.

During the 9-day Simbang Gabi, our partners fully immersed themselves in the spirit of the season. They gathered at the Museo ng Pag-asa for the Eucharistic celebrations and shared communal meals. Additionally, they enjoyed traditional Christmas treats like puto bumbong and bibingka from local vendors and were serenaded by talented choirs.

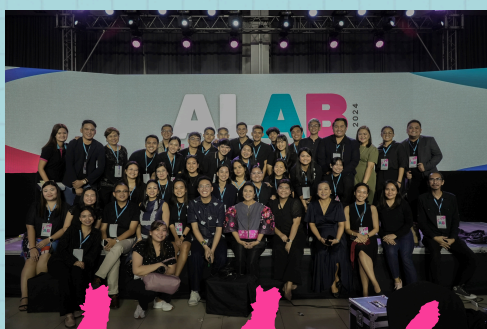

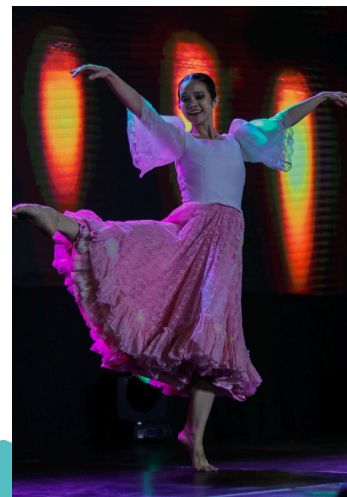

This collaborative effort not only honored the essence of Simbang Gabi but also supported the ongoing programs of the Foundation, reinforcing the spirit of unity and community that drives our mission forward.

ALAB

On March 12, 2024, Angat Buhay hosted the ALAB Benefit Dinner, an inspiring gathering of esteemed benefactors and key partners committed to advancing our ongoing programs. The evening was enriched by performances from Alice Reyes Dance Philippines and a comprehensive report delivered by Chairperson & President Atty. Leni Robredo. In her address, Atty. Robredo provided an overview of our current programs and upcoming projects, as well as the exciting initiatives we look forward to collaborating on with our partners.

The collective support of our partners is crucial in driving our initiatives forward across all pillars, enhancing the impact of our shared efforts.

Angat Buhay is collaborating with the Philippine Monitoring and Evaluation Society and Results-Based Initiative Philippines to significantly enhance its monitoring and evaluation (M&E) systems and processes. This partnership aims to ensure that Angat Buhay's projects are effectively tracked and assessed for their impact and efficiency.

As part of this collaboration, the Philippine Monitoring and Evaluation Society and Results-Based Initiative Philippines will conduct a comprehensive capacity-building program. This program will be offered at no cost to Angat Buhay staff and the Angat Bayanihan Volunteers Network. Through a series of workshops and training sessions, participants will gain essential skills and knowledge in project monitoring and evaluation.

The training will cover various aspects of M&E, including the development of logical frameworks, data collection and analysis techniques, and the use of evaluation findings to inform decision-making. By building these capacities, Angat Buhay aims to improve the overall quality and accountability of its initiatives, ensuring that they effectively address the needs of the communities they serve and achieve the desired outcomes.

This initiative reflects Angat Buhay's commitment to continuous improvement and transparency in its operations, ultimately enhancing its ability to make a positive impact on the lives of Filipinos.

*As we move forward,
let these accreditations
stand as a testament to
our unwavering commitment
to professionalism and
accountability.*

*These accreditations
are not mere badges of honor;*
**they symbolize
our commitment
to you.**

Certifications and Accreditations

PCNC ACCREDITATION

A year since its inception, Angat Pinas, Inc. (Angat Buhay) has remained steadfast in its dedication to community upliftment and good governance, culminating in the recent acquisition of the Philippine National Council for NGO Certification (PCNC) recognition. Achieving this notable milestone just one year after its formal launch in July 2022 underscores Angat Buhay's unwavering commitment to excellence, transparency, and accountability. On August 30, 2023, Angat Buhay proudly received the PCNC accreditation, surpassing the stringent standards set for NGOs and reinforcing its pledge to serve communities with integrity and efficacy. The benefits of PCNC accreditation include eligibility for BIR registration as a Donee institution, a seal of legitimacy and good NGO governance recognized by the Government and donor agencies, access to local and international funding, and networking opportunities with fellow PCNC-accredited NGOs and foundations. As a donee institution, all donations to us are tax-exempt.

ISO 9001:2015 CERTIFICATION

Angat Pinas, Inc. (Angat Buhay) achieved ISO 9001:2015 certification in January 2024, following a rigorous assessment conducted by ISO-accredited auditors from TÜV Rheinland. Since its inception, the organization has been dedicated to uplifting fellow Filipinos, valuing trust as its cornerstone. The ISO 9001:2015 certification underscores the Angat Buhay's steadfast commitment to efficiency, quality, and continuous improvement, further cementing the trust it has garnered from partners and volunteers alike. This milestone demonstrates the organization's adherence to global standards in quality management systems, essential for ensuring the excellence of its services and programs. It reflects the dedication and hard work of the entire Angat Buhay team, enhancing their ability to deliver impactful initiatives with integrity and efficacy, and reinforcing their mission to serve communities with excellence and compassion.

SGV'S UNQUALIFIED OPINION

SGV, the external auditor for Angat Pinas, Inc. (Angat Buhay) has issued an unqualified opinion for the organization's 2023 financial statement. According to SGV's assessment,

"The accompanying financial statements present fairly, in all material respects, the financial position of the organization as of December 31, 2023, and its financial performance and cash flows for the period from January 1, 2023, to December 31, 2023, in accordance with Philippine Financial Reporting Standards for Small Entities (PFRS for SEs)." This affirmation underscores Angat Buhay's commitment to transparency and compliance with stringent financial reporting standards. The unqualified opinion reflects the organization's dedication to maintaining high standards of financial integrity and accuracy, ensuring accountability to stakeholders and effective management of resources. This achievement bolsters Angat Buhay's credibility and strengthens its capacity to continue delivering impactful initiatives that uplift communities across the Philippines.

*Kalakip ng pagtupad
ng mga pangarap natin
ang patuloy na pagtupad
ng isang pangako
magmula pa lang noong
nasa Naga City pa lang ako:*

**Ang maabot
ang mga
nasa laylayan,**

*masamahan silang mangarap,
at matulungan silang tuparin ang
mga ito.*
